EMC IN COMMUNICATION SYSTEMS

Special Session

*October 09-12, 2001
Split, Dubrovnik (Croatia)
Ancona, Bari (Italy)*

Call for Papers

Special Session on EMC in Communication Systems will be held aboard the luxury ship "Marko Polo" traveling on the route Split (Croatia) - Ancona (Italy) - Bari (Italy) - Dubrovnik (Croatia) in the frame of the 9th International Conference on Software, Telecommunications and Computer Networks - *SoftCOM 2001*.

A large amount of interest is currently generated in the area of EMC, so the speakers of this Special Session will be discussing the challenges to the EMC community in realizing communications with less impact of electromagnetic interference. The session will deal with the topics listed, as well as a contributions falling within the scope of the meeting, i.e. we seek for the original, unpublished papers on all aspects of EMC in communications including, but not limited to the following areas:

- * Analysis and Design Innovations
- * Computational Techniques
- * Measurement Techniques
- * Time Domain Modeling
- * Technologies and Devices
- * Natural EMC Phenomena
- * Man - made Noise
- * Emission and Immunity
- * Product Safety
- * Environmental Safety
- * Radiation Hazards
- * Biological Effects
- * Lightning
- * Transients
- * Standards

State of the art reviews and advanced mathematical and computational aspects will also be welcomed.

Each day of the conference the ship will be anchored in one of the ports on the route, and overnight it will sail towards the next destination. This provides participants with the opportunity to share ideas in close contact with their colleagues and to enjoy the pleasant and inspiring ambience while visiting the ports along the beautiful Adriatic coast. During the conference the car deck will serve as an exhibition arena for exhibitors of software and telecommunication products.
