

Second Workshop on Software Engineering in Practice

Chair: Darko Huljenić, Ericsson Nikola Tesla

September 18 – 20, 2013

Split – Primošten

Call for Abstracts

The software is everywhere around us. The significant growth of ICT products and solutions depends on the quality of the used software. The software is essential enabler of future usage and growth of networked society surrounded with 50 billion of connected devices. Are we ready for such mass software production and keeping the software product life cycle continuous? Are the current researches and used software engineering practice correlated and ready to take responsibility for such broad and demanding software usage? Are we ready to switch from software products to the model of software as a service?

Let's take opportunity to discuss these software engineering challenges and exchange experience between researchers and practitioners. Prepare your view and share it with others. Please prepare the one or two page abstract of your presentation (please use the doc or latex template at http://marjan.fesb.hr/SoftCOM/2013/author_presenter.html) and submit the abstract through the EDAS website at http://marjan.fesb.hr/SoftCOM/2013/paper_submission.html.

Selected submissions will be presented at the professional workshop which will be held as a part of the Business forum conjoint with the SoftCOM 2013 conference. Accepted and presented abstracts will be published in the Workshop on ICT proceedings (not in Xplore!).

IMPORTANT DATES

Abstract due	August. 25, 2013
Notification of acceptance	September 05, 2013
Full presentation (ppt)	September 12, 2013
Workshop meeting	September 18, 2013

Details on the submission process and authors kit are available at the website:

<http://www.fesb.hr/SoftCOM/2013>

Conference Secretary: Petar Šolić, University of Split, Croatia (softcom@fesb.hr)
